12 Month ASQ:SE Questionnaire

(For children ages 9 through 14 months)

Date: _____

Patient Name: _____
(Place label here)

Date of Birth: _____

Name of Person Completing Form: _____

Relationship to Patient: _____

.....

Please read carefully before completing this form.

The purpose of the ASQ:SE is to gain information on your child's social and emotional development and your feelings about your child's development. Some of the questions are not very specific, but you should answer based on your feelings or opinions about your child's behavior.

With the exception of the open-ended questions at the end of the questionnaire, each question has three possible answer responses, which should be checked as appropriate:

- *Most of the time*, indicating the child is doing the behavior most of the time, too much, or too often
- *Sometimes*, indicating the child is doing the behavior occasionally but not consistently
- *Rarely or Never*, indicating the child rarely performs the behavior or has never performed the behavior

If the behavior is of concern, you may also check the circle to the right of the question. It could be a rare or never occurrence but still is concerning when it does happen. Or it may just be something you want to discuss further.

06/2009

Please read each question carefully and

1. Check the box that best describes your child's behavior *and*

2. Check the circle if this behavior is a concern
