

South Lake Pediatrics Says "Thanks" for a Great First Year

A lot has happened at South Lake Pediatrics since our Chaska office had its Grand Opening February 1, 2011. In addition to taking our first steps toward a completely electronic medical records system, we've also implemented digital radiology at all of our office locations.

Last year also saw South Lake Pediatrics nominated for the 2011 G. Scott Giebink Award for Excellence in Immunization and awarded grant funding for the diagnosis and treatment of adolescent depression. Both honors are a testimonial to our ongoing pursuit of excellence in patient care.

South Lake Pediatrics' commitment to community outreach in 2011 included participation in, and sponsorship of, numerous health and wellness events, as well as providing donations of bikes and helmets to area schools.

Along with enhancing our services, South Lake Pediatrics has expanded its range of expertise as well, bringing on some great new physicians and staff members in 2011. At our Chaska location, we were excited to welcome Dr. Julie Ewasiuk to our team and welcome back Dr. Keenan Richardson on his return to the SW Metro. We're also pleased to announce Kiel Alward and Relate Counseling will be available at Two Twelve Medical Center on Thursday afternoons.

It's been a great year. We've worked hard to ensure that South Lake Pediatrics continues to bring greater convenience to busy families and give kids of all ages easier access to the quality health care they deserve. But we couldn't have done any of it without our patients. On the first anniversary of our Chaska Grand Opening, all of us at South Lake Pediatrics would like to say thank you. We look forward to serving you and your family in the year ahead.
